PharmLabs San Diego Certificate of Analysis

3421 Hancock St, Second Floor, San Diego, CA 92110 | License: C8-0000098-LIC ISO/IEC 17025:2017 Certification L17-427-1 | Accreditation #85368

sample Supreme - 1g Skywalker OG

Sample ID SD221220-094 (57229)		Matrix Concentrate (Inhalable Cannabis Good)
Tested for Kooka Inc		
Sampled -	Received Dec 20, 2022	Reported Dec 21, 2022
Analyses executed CANX		

Laboratory note: The estimated concentration of the unknown peak in the sample is 3.7% [Currently PharmLabs laboratory can not confirm an unidentified peak in your chromatogram due to interference (only with highly concentrated D8 products) from which we believe to be either (+)d8-THC or d9-THC. At this time there are no reference standards available for (+)d8-THC. (+)d8-THC is a different compound from the main (-)d8-THC cannobinoid and, therefore, these two compounds may have different efficacies. Using the most advanced instruments and techniques available, the separation of (+)d8-THC and d9-THC is problematic for the scientific community as a whole. PharmLabs believes the unidentified peak to be a combination of (+)d8-THC and d9-THC with the majority, if not all, of the concentration being (+)d8-THC. Total (+/-) D8 Concentration is estimated to be: 73.5%

CANX - Cannabinoids Analysis
